

DANCING ZOMBIES

BIO

Dancing Zombies has been playing since 2005, starting in Washington, D.C., then the Florida warehouse and festival scene, including Ultra Music Festival in 2010 and 2011.

Now based in Las Vegas, he hosts Desert Boom and plays around the city and out in the desert. The sets lean dark and hypnotic: forest and hi-tech psytrance, with drum and bass and heavy bass music in the mix.

Off the decks he builds the stages, shade and light installs that festivals run on.
